

## MCSC Newsletter - Happy new year

Hello and Happy New Year from everyone at MCSC! We hope everyone had wonderful Holidays, and that you have all returned refreshed, and with new resolve to keep that New Year's resolution to LOOK GREAT!

2009 has gotten off to an exciting start. Dr. Weinberg was invited to be interviewed by Rogers Television on the subject of new trends in cosmetic medicine for the coming year. The show just aired Tuesday January 13, and in case you missed it, we hope to have a video of the interview mounted on our website soon. We also have a new Facebook Page, which can be accessed directly from the website as well. We welcome friends, comments and discussion so feel free to check it out.

### Upcoming Events

Our other exciting news is next week's promotion, "Restylane days". For the week of January 19th you can enjoy a savings of over \$500 on Hyaluronic Acid filler, as we are offering a free syringe of Restylane with any purchase of 3 syringes. Not ready for your next treatment yet? Don't think you need 4 syringes all together? Not to worry, you can purchase the syringes during the promotion, and use them anytime up until the end of September 09. Never had filler before, but been considering it? Now is the time to book your free consultation, and take advantage of this excellent price. But don't wait to book, as we expect appointments will fill up quickly that week.

### Updates in Cosmetic Medicine

To kick start this year, we thought we would keep things light with a brief recap of the news published in the Dec edition of People Magazine on Celebrity Cosmetic Procedures. It may not come as a surprise to learn that many of your favorite celebrities have had a little medical help to stay gorgeous. Stars who admitted to using Botox included Linda Evangelista, Courtney Cox, Vanessa Williams, Cheryl Tiegs, Suzanne Sommers and Virginia Madsen, to name only some! Several said they had used fillers, including Amy Brenneman and Jessica Simpson.

As for surgical procedures, Jane Seymour, Kelly Rowland and Heidi Montag have all had breast Augmentations, according to the article, and Brigitte Nielsen, Sharon Osbourne and others had had a combination of other procedures including facelifts, tummy tucks and liposuction.

Of course, Stars also rely on excellent cosmetics to keep them looking wonderful in front of the camera. Many celebrities have endorsed Glomineral Cosmetics, including Jane Seymour, Kirsten Dunst, Keira Knightly, Florence Henderson, Cameron Diaz, Shirley Jones and Diane Lane. Glominerals are the number one cosmetic choice at MCSC due to their excellent quality. Free of harsh chemicals or other skin irritants, they contain UV protection, antioxidants, and anti-inflammatory ingredients, making them ideal for use after cosmetic procedures. They are also free of cheap filling agents such as Talc, contained in most over the counter mineral cosmetics.
